

## Foundation Course in Tecniplast IVCs

It is important to ensure that new trainee technicians receive all the information and skills necessary to use IVCs and Change Stations correctly from the outset of their role in caring for animals housed within this equipment.

This course is designed to provide a thorough introduction to IVCs and their correct and optimal use. It delivers the key basic information as well as supporting background information to ensure delegates leave with an understanding of the equipment's features, function and best working practices for optimal in-cage environment.

End of course assessment is by written multiple choice exam paper plus two practical competency assessments.

**Available Dates:**

Wednesday 1<sup>st</sup> Feb 2017

Wednesday 5<sup>th</sup> April 2017

Wednesday 7<sup>th</sup> June 2017

**Venue:** Tecniplast

**Cost:** Available upon request

Maximum of 12 delegates per course; 6 CPD points will be awarded on completion of this course\*

## Tecniplast IVC Knowledge & Skills Refresher Course

It is important to check that more established experienced technicians have depth and consistency of IVC knowledge, particularly if this has been gained solely in-house. This course will thoroughly test and check your experienced technicians level of IVC knowledge and understanding to a high level.

The course content is designed to deliver the most up to date working knowledge of Tecniplast IVC systems together with the best working practices to achieve optimal performance and the highest standards of in-cage animal environment and welfare.

End of course assessment is by written exam paper incorporating multiple choice and longer answer questions, some requiring logical application and extension of knowledge plus two practical competency assessments.

**NB: Attendees need to have a minimum of 2 years' prior experience working with IVCs to keep pace and benefit fully from this course.**

**Available Dates:**

Thursday 2<sup>nd</sup> Feb

Thursday 8<sup>th</sup> June

**Venue:** Tecniplast

**Cost:** Available upon request

Maximum of 10 delegates per course; 5 CPD points will be awarded on completion of this course\*

## Train the Trainer in Tecniplast IVCs Course

Supporting your technicians daily with IVCs is a key step in ensuring they are working with the IVC system safely and optimally. By upskilling individuals within your team who can train others in the use of IVCs you can ensure a wider support network is available.

This course provides the key knowledge and skills required to be effective trainers of others in IVCs. It ensures delegates understand the successful methods and approaches to training others and will focus on designing and delivering training sessions for working with IVCs.

End of course assessment is by peer and tutor reviewed delivery of their IVC training session and follow up submission of work.

**Please note: Attendees need to have successfully completed the Tecniplast IVC Knowledge & Skills Refresher course as a pre-requisite of attendance to ensure their IVC knowledge is at a required standard.**

**Available Date:**

Wednesday 28<sup>th</sup> June

**Venue:** Tecniplast

**Cost:** Available upon request.

Maximum of 6 delegates per course; 8 CPD points will be awarded on completion of this course\*
