

## Tecniplast ISOcheck Quick check for long-life experiments

The new Tecniplast ISOcheck is a smart, electronic tool specifically designed to check if ISOcages are correctly maintained and therefore perform up to expectation.

**So as always to guarantee the highest standard of the ISO system and the relative experiments, the cages can now be tested inside the facility on a regular basis.**

The ISOcheck is available for both **ISO Positive** and **ISO Negative** cages; it consists of a single cage checking station which provides a very quick PASS or FAIL result.

### SAFETY FOR ANIMALS AND OPERATORS

The ISOcheck station provides information about the maintenance status of ISOcages.

### RELIABLE AND USER FRIENDLY

ISOcages are automatically tested after being docked in the mini-rack. The test starts just by clicking on the screen.

### ERGONOMIC

Portable solution that can be placed on any surface/table close to the Biosafety Cabinet.

Thanks to the adjustable touch screen, the station can also be directly placed onto the BSC working surface.

### EASY TO CLEAN

The electronic part can be easily dismantled for cleaning and disinfection, while the rack can be autoclaved.
