

ARIA CS60 AURIS
CHANGING STATION

Innovation Meets Silence

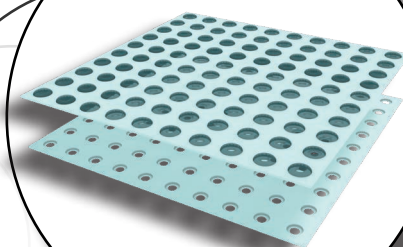

Experience the future of cage changing technology, designed to provide quieter, more efficient lab animal environments.

 **TECNIPLAST**

Silent Operation

The CS60 Auris utilizes advanced sound insulation system and engineered airflows to reduce noise. Ideal for maintaining a calm atmosphere in the lab animal room.

HEPA Filtered Airflow

High Efficiency air plenums design and Laminar Airflow Technology (ISO 3 air quality) ensures a clean, sterile environment for safe and effective cage change procedures protecting the operators and environment from allergens and potential contaminants.

Energy – Efficient Performance

With eco-friendly components, the CS60 Auris not only provides powerful performance but also reduces energy consumption, making it a sustainable choice for any lab.

Ergonomic Design

Designed with user comfort in mind, the station features height adjustability, remarkable lightness, and a patented dual configuration of work surface, allowing technicians to work efficiently and comfortably.
