WHEN A DEEPER MONITORING AND CONTROLLING OF YOUR CAGE WASH AREA IS REQUIRED

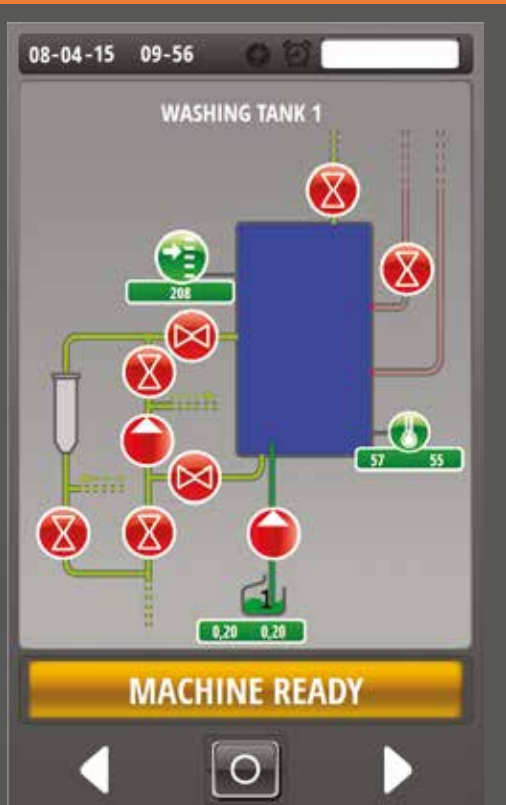

POLARIS

The lighthouse that will lead you in the daily operations on your system has finally a name, Polaris

An HMI (Human Machine Interface), much more than a simple touch screen, where on top of the intuitive graphic and usability is available, as a standard, a comprehensive set of embedded functionalities and features:

- **LITEVIEW:** smart-phone and table app for remote monitoring and setting (cycle parameters and self-start data), inclusive of a "blackboard" to send messages to the screen in the cage wash area
- **TELESERVICE:** full control process, self-diagnostic logic and live P&ID charts combined with remote connectivity via internet (on customer's permission) for troubleshooting and software upgrades directly from the factory
- **EMETER:** data collection and statistics on the machine consumptions (electricity, water and detergents)
- **USB port:** cycles, alarms and eMeter data downloadable in digital format

P&ID CHART

USB DATA DOWNLOAD

“Blackboard” allows to send messages from mobile device to touchscreen in the cage wash area

- **SELF-START:** a weekly programmable functionality to automatically switch on and prepare your unit
- **SELF-CLEAN:** a dedicated cycle to rinse chamber, lines and tanks when a drain process is requested
- **WEB-CAMS:** available on robotics to enhance remote visibility and simplify communications through barriers

LIVE STREAMING

REALVIEW

When a deeper monitoring and controlling of your cage wash area is required, REALVIEW is the right answer

A web based tool, accessible via any browser and any device (smart-phone, tablet or laptop), with further capabilities on top of the standard LITEVIEW ones:

- **real-time** multiple equipment supervision, all your units simultaneously connected
- **data gathering and exporting** in editable or locked format (excel, .pdf)
- **run statistics** about your cycles, alarms, consumptions and productivities
- **quick consult documentation** with manuals, electrical drawings, pneumatic schemes and P&IDs in digital format accessible from everywhere
- **alarms notification via email**: combine the alarms list and addressees upon your needs
